MEMORANDUM

TO: School Board Date: September 22, 2014

FROM: Frank Markiewicz Business Administrator CC:

THROUGH: Brian Cochrane, Superintendent

SUBJECT: Monthly Financial Report – August 2014

The monthly financial report for August 2014 has been moved forward to include financials through September 22, 2014. The reason for this is to report up-do-date financials that show the start of the school year along with salary and benefit actual expenditures and encumbrances.

Executive Financial Summary

This monthly one-page report has been reformatted to provide a financial “snap shot” of the district’s largest fund (General) with detail on certain segments of the budget. These segments include Salary and Benefits, Special Services, Building and Grounds, and Transportation. Additionally, other funds reported include Food Service, Trust, and Student Activities.

The budget for salaries and benefits is 14,817,629, representing 74.2% of the district’s general fund budget. To date, 96.8% of that amount has been expensed or encumbered. Two areas of note; total salary appropriation at this time is anticipated to be overspent by 30,177 or .3% and the appropriation for health insurance has a balance of 49,505 or 2.6%. The balance for these two appropriations is subject to change throughout the year as there are currently two full-time openings, unanticipated resignations and new hires, and life changing events impacting health insurance eligibility.

Special services, excluding salaries and benefits, has 37.9% of its appropriation available, with special transportation balance of 206,819 representing the largest piece.

Building and Grounds will be an area of this year’s budget that will closely be watched. Over the summer months, extensive unanticipated repairs to the building and grounds as well as unscheduled preventative maintenance was completed at LMS. Currently, B&G appropriation balance for the entire district is 414,611 or 32.7%. The largest piece of this balance is Utilities/Oil accounting for 120,404.

Transportation is another area that requires constant watch. The district wide appropriation for transportation has an available balance of 340,301 or 34.3% of the budget amount. Special services is the largest available amount in this group, representing 206,819 at this time.

The trust fund balance for building maintenance increased by 50,002 due to warrant article #4 being passed allowing the district to transfer 50,000 from unassigned fund balance to the trust account.

Fiscal Year End 2014

As previously reported, the unassigned fund balance ending June 30, 2014, increased by 410,256 to 788,619. Major contributors to the increase in unassigned fund balance are substantial actuals over projection; local revenue 213,241 and federal revenue 101,879. Also contributing was underspending appropriations in purchased services 585,033 with Special Services the largest area of underspend.

The draft Statement of Revenue, Expenditures, and Changes in Fund Balance below is an internal document that will be submitted to the district from our auditors.

Estimated Local School Tax Rate

The process taken during budget development to project tax *impact* simply takes the cost of the proposed general fund budget (gross appropriation) and warrant articles and calculates the tax impact, less projected local, state, and federal revenue. Certain assumptions are built in to this process; gross appropriations will be fully expended from the previous fiscal year leaving a zero unassigned fund balance and revenue projections used for this calculation use current fiscal year numbers.

In September and after submitting the MS24, revising the district’s estimate of revenue projections, numbers are defined in such areas as Catastrophic Aid, Medicaid reimbursement, and Adequacy Aid. State Education Tax for the town, which is included in the calculation to determine the Local School Tax Rate, remains unknown at this time, hence the Estimated Tax Rate.

The estimated local tax rate for November 2014 is 13.36 or a reduction of .16 /thousand from 2013. Calculation for this are:
