

## Resuming the School Routine

Once your child is determined to no longer be at imminent risk to harm him/herself, it is helpful to create a sense of routine and structure. It is also helpful to keep the school informed so that your child may return to their coursework and activities as soon as possible. With this in mind, we require that a re-entry meeting be held after the assessment and *before* your child begins their next school day. It is imperative that you attend this meeting.

Acting as your child's advocate, the Guidance Counselor and School Nurse can be of tremendous support. The School Nurse can regularly assess for any medical complications or medication side effects. District policy states that all medications a child uses are to be kept under the supervision of the Nurse to ensure its appropriate application and monitor safe usage. We would like to assist in the coordination of care between your health providers and CHS. Let us know what your child needs and how we can help. We'll do our very best to support your child and you during this challenging time.

### Additional Information:

To learn more about youth suicide, a number of resources are available to you.
