

May 18, 2020 COVID-19 / Remote Instruction Update

Good morning, Litchfield.

With our end dates determined, it truly feels like we are over heartbreak hill and dashing to the finish line. It is helpful to remember that a well deserved summer break awaits many of us just over that line.

I would like to ask all parents in our community to take 4 and a half minutes to watch this important [Public Service Announcement](#) about child welfare in the midst of the COVID-19 shutdown. This powerful message is produced by NH educators and highlights an important issue for youth in NH. Since every adult in NH is a mandatory reporter of suspected child abuse or neglect, we all share a responsibility to speak up if something does not seem right.

Finally, we have a brief [survey](#) to see what is on the mind of our Parents. The survey closes on Tuesday, and students in grades 5-12 have been invited to participate in an OPTIONAL version of the survey.

Have a great week! Stay strong!!!

Be well, Mike
