

Coronavirus Update

September 27, 2020

Good evening, Litchfield!

I am writing to report that we have experienced another [Positive COVID-19 Case](#). The Litchfield School District became aware late last week of a member of the Griffin Memorial School community who tested positive for COVID-19. All student and staff notification protocols were followed and the district is working with the New Hampshire Department of Health and Human Services (NH-DHHS) to address and monitor the situation moving forward.

Upon learning of the positive test result, district officials triggered contact tracing in conjunction with the NH-DHHS. Because this person has not been attending school since September 11th, the number of “close contacts” has been minimal (close contact is defined as being within 6 feet of the person for a cumulative time of 10 minutes within a 4-hour period).

The Litchfield School District is operating through an in-person/remote instructional format. Approximately 80% of students in the School District are currently attending school in-person. To help prevent the spread of this respiratory illness, we have a strong mask mandate, social-distancing requirements and frequent hand-washing/ sanitizing protocols.

Be well & Stay Strong!

Mike Jette, Superintendent
